

Live Solutions

For high-stakes exams, critical certifications, and pre-employment screenings, Examity's Live solutions are the most secure choice for advanced online assessments.

When it comes to test integrity, we recognize that every exam comes with a unique set of considerations. That's why we provide our partners with the flexibility to select from one of two live proctoring solutions to best meet your needs: Live Authentication + Audit and Live Proctoring.

Features Include:

- ✓ Live Authentication
- ✓ Live Review of Exam Recording
- ✓ Flagged Violations with Video
- ✓ Human Audit
- ✓ Reporting and Analytics

Live Authentication + Audit

Our industry-leading approach to live, online proctoring provides everything you need for the most secure test-taking experience possible.

It begins with live ID authentication and a 360° sweep of the room and workstation, ensuring any unauthorized materials are removed before testing can proceed. Once complete, the proctor will leave the session. Although a human proctor is not present, the exam session will be recorded from start to finish, and our software will monitor the exam for any unusual activity. Upon exam completion, an Examity proctor and auditor will review both the authentication process and proctoring session. The recording and data will then be released to the dashboard.

Features Include:

- ✓ Live Authentication
- ⊕ **Live, Low Ratio Proctoring**
- ⊕ **Real-time, On-Screen Support**
- ⊕ **Immediate Exam Intervention**
- ✓ Flagged Violations with Video
- ✓ Human Audit
- ✓ Reporting and Analytics

Live Proctoring

Live Proctoring offers an extra layer of security. That's because the live proctor oversees the entire session, from authentication to test completion. It also includes the same capabilities of Live Proctoring's pre-test authentication and post-test audit,

Such a high level of security allows a proctor to proactively address suspicious behavior or respond to a technical question, should such a need arise. This type of live proctoring is recognized throughout the industry as the best choice for high-stakes exams. And, as an added advantage, Examity proctors are able to provide interactive support in real-time if necessary.

Which live online proctoring solution is right for your organization?

To discuss your test integrity needs and receive a demonstration of our live proctoring solution, email info@examity.com or call 1-855-392-6489 today.
